Box No. V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

The solution to this problem as proposed in claim 1 of the present application involves an inventive step (PCT Article 33(3)) for the following reasons:

The prior art contains nothing that suggests using the welding wire as a mechanical sensor during the welding process.

Claims 2-20 are dependent on claim 1 and therefore likewise meet the PCT requirements for novelty and inventive step.
